

Evolution by Natural Selection

What are some differences you have noticed in the size and shape of dogs in your neighborhood?

Do their differences make them better at some things, but not well-suited for others? Write a complete sentence describing one attribute that a dog in your neighborhood has and how it helps them do something in particular.

Fill in the blanks and Finish this sentence

If the world suddenly changed, so the only thing that dogs could eat was deer and there was absolutely no way for a dog to eat if it wasn't big or strong enough to catch and kill a deer. We would most likely find that smaller dogs would _____, and the bigger ones would _____. This would change the population of dogs to _____.

Look at the mice below. Describe what is happening in Figures 1-3.
